

Erik Perry – About Us Page

Kaboodlz Entertainment Group LLC (KEG), a Detroit based booking company, was initially founded by (Tobias) Erik Perry, who has nearly 15 years of experience in the music industry. The original company opened as a CD, records, and tapes music store in 1997, and later closed in 2000. It was after this closure that Erik's true destiny came to life; he met Kool Keith's DJ, KutMasta Kurt, who gave him his first opportunity to work as a booking agent. From that experience, Erik decided to form what now is Kaboodlz Entertainment Group.

Erik's experience, dedication, and creativity has helped KEG stand apart as one of the most productive and unique booking and management services in the industry. KEG has established links to key industry contacts that have been carefully utilized, in such a way, to develop the best possible professional opportunities for their clients. KEG's business aim is to develop and present their clients in the best light to help them gain musical success. Erik actively uses his dedication, knowledge and professional knowledge to make every client's experience with KEG a pleasurable and profitable experience. He believes that building lasting relationships with artists is important to KEG's growing success as well as the continual fulfillment of their commitment to secure work.
