

Color expert Jan V. White declares that nearly 55% of people are more drawn to a full-color material than that of a black and white and nearly 82% of people pay attention longer with a colored material than not. With saying this, it's apparent that color is what drives sales for postcard printing. First impressions, whether in the real world or simply printed materials, constitute quality. 4OVER4 recognizes this power and utilizes it while working on every postcard printing project that they acquire. Working with us will put you ahead of the competition by helping to increase productivity in the time you spend creating your postcard printing products.

Individuality also drives attention not only to your customers, but within your individual industry. Because of this notion, 4OVER4 offers a variety of postcard printing options including oversize postcards with sizes of 6x8, 6x9 and greater. The added space within your postcard allows you more time to sell your product to the reader. For only 14 cents more postage (standard postcard rate is 27 cents), you are increasing the chances of driving sales to your business. 4OVER4 acknowledges the importance of giving a customer an aesthetic material. Start a trend in 4-color postcard printing. Demand the attention that you deserve!

Postcard printing guarantees results. Why take a chance that your product will be brushed aside? With 4OVER4 your product commands attention! Ultimately, motivation and participation occur up to 80% times more with the use of color. With 4OVER4 postcard printing, your 4-color printing materials will not only look good, but drive results that you are looking for. By trusting the printing professionals, your business is given a chance to blossom to its fullest potential. What are you waiting for? Make your postcard printing order today.
