

Looking for a comprehensive, easy to use service that takes your designs and converts them to .html?

With peace of mind, Fine Coding will provide a professional, high-quality html markup service. Not only will this save you time, but also money. Leave this to the professionals!

Other similar services charge exorbitant rates for the same service! **Why pay more?** We guarantee your satisfaction and will offer a 100% refund if your coding isn't up to your personal perfection. We also will refund your money if we cannot fulfill the deadline you have enlisted or if you decide to cancel the order before it is begun for any reason.

Our Australian-based company is dedicated to your success! We are reliable and meet every deadline for each and every customer. You are not merely an invoice, but a part of our continual journey to business success ourselves. Allow us to take care of the technical stuff!

First, be advise of the following technical specification requirements:

- Hand coded XHTML and CSS
- Valid XHTML 1.0 Strict
- Valid CSS 2.1
- Clean, Semantic Markup
- Image Optimization (for fastest possible loading time)
- Default browser support: Internet Explorer 6, Internet Explorer 7, Firefox 1.5+, Opera 9, Safari 3, Netscape 8.0.2+, Mozilla 1.7+ (optional browser support: Internet Explorer 5.5, Firefox 1.0.7, Opera 8 (please request if required))
- Shorthand CSS
- POSH (<http://microformats.org/wiki/posh>)
- Image Replacement

Some optional features include:

- sIFR (If you wish to use this feature, please provide appropriate font files)
- Print style sheet (This will provide you a mock up of the design).

Does that look like a foreign language to you? We understand. Our experienced customer service panel is available to answer any questions you may have about our service and how to implement it for your business!

Having professional html markup leaves you to the other tasks needed in running your business. Not only will improper design markup ruin your chances of a high position on search engines, but incorrect technology use will as well.

With Fine Coding, your designs are easily integrated into a large variety of content management systems.

These systems include:

- vbulletin
- oscommerce
- Wordpress
- Other customized websites

Learn from us, the professionals!

Put it in our hands!

Together, our journey can continue.
